

Find everything you need in one app

Manage your supplement routine on-the-go with the Fullscript mobile app

Did you use the Wellevate mobile app to order high-quality supplements and manage your supplement routine? Good news: Fullscript has launched a mobile app so you can continue getting your favorite supplements and practitioner's advice, anywhere, anytime.

Built for you

We built a fast and reliable patient mobile app with you in mind. We're giving Wellevate app users exclusive access to our new mobile app experience, making it easy to stay on track with your supplement routine on Fullscript.

The same ordering experience

All your Wellevate information will be available in the Fullscript mobile app so you can continue ordering your favorite supplements. Find your order history and past treatment plans to continue your supplement plans on Fullscript.

Refill on-the-go with Autoship

Stay on track with refills by adding products to Autoship right from the app! Autoship is like Wellevate's automated Auto-Refill service, with a few added benefits. Schedule and manage recurring orders all within the Fullscript mobile app.

Keep wellness in your pocket

The mobile app makes ordering supplements with Fullscript easier than ever. In just a few taps you can:

- Access all of the details in your plan, including any messages from your practitioner, recommended supplements, and dosage instructions.
- Access your order history and refill quickly on-the-go.
- Filter by brand, supplement type, or your practitioner's favorites to find the supplements you need, fast.

Ready to get started?

The Fullscript mobile app is now available in the US App Store! [Download now](#) and enjoy the convenience of having your favorite supplements available in the palm of your hand.

Note: The Fullscript mobile app is available for iOS only.
