

## Social media toolkit

# Fullscript's iOS patient mobile app

---

As you may already know, our brand new Fullscript iOS mobile app recently launched! To help you spread the exciting news to your patients, we've created this social media toolkit.

Messages for Facebook and Instagram can be found on the next page. Graphics are included separately in a ZIP file in the 'Graphics' folder.

**Important:** At this time, only patients who have created a Fullscript account or accepted your invitation are able to sign in on the mobile app.

**Tip!** When mentioning Fullscript in any social media posts, please tag us so we can engage with your posts!

@Fullscript

@FullscriptHQ

@Fullscript

@Fullscript

## Messaging

Copy and paste these ready-made messages to use as social media posts and stories. Make sure to attach the corresponding social media and/or email graphic from the ZIP file found in the 'Graphics' folder.

### Facebook

(copy text below)

Fullscript's brand new iOS mobile app has launched! I'm thrilled about this because this means that you can conveniently:

- Order supplements anytime, anywhere
- Schedule and manage refills on-the-go
- Update Autoship orders wherever you are

If you already have a Fullscript account (US only), be sure to download the app here: <https://apps.apple.com/app/6446033161>

### Instagram

(copy text below)

I'm very excited to share that Fullscript's brand new iOS mobile app is here! You can now quickly access your supplement plans, place refills on-the-go, and schedule recurring orders with Autoship.

If you already have a Fullscript account (US only), don't miss out! Download it today on the App Store by searching "Fullscript" or through the link in my bio.

[Add [App Store link](#) to your Instagram "link in bio" extension if applicable]
